

STATEMENT OF PURPOSE

RS19127

To repeal Chapter 64, Title 39, Idaho Code.

In 1989 the Clean Lakes Act established a pilot program in the five northern Idaho counties for lake water quality protection through a coordinating council. The coordinating council has been disbanded and the Act has not been utilized for approximately 15 years under the administrations of the past three governors. The Acts purposes and functions have been superseded by subsequent legislation and actions of other Commissions established for the Coeur d'Alene and Pend Oreille basins as well as watershed advisory groups (WAGs) and basin advisory groups (BAGs) established through the Idaho Department of Environmental Quality (DEQ).

FISCAL NOTE

No fiscal impact
